About Duskin Corporate Report 2024 Digest Version

This report is the digest version of Duskin's Corporate Report 2024. Covering our corporate philosophy, messages from top management, value creation process, business strategies, sustainability, and more, this Digest Version offers a compact summary of our range of initiatives designed to boost corporate value.

The Corporate Report is an important tool designed to help enhance discussions with our stakeholders, including shareholders and investors. It is also a means of explaining our goals to be achieved through our Medium-Term Management Policy initiatives and the new value we are going to create based on our unique philosophy of sowing the seeds of joy. All in all, the purpose of this report is to facilitate unwavering understanding of our corporate philosophy as well as expectations for Duskin's future.

It is our hope that this report helps create opportunities for dialog, and that it also works to enhance understanding of our company and who we are. For your reference, the original version (in Japanese) will be published in November 2024.

Publications

Corporate Report	A comprehensive report containing both financial and non-financial information. It includes content related to Duskin's long-term value creation, business strategy, business results and sustainability initiatives. https://www.duskin.co.jp/english/ir/library/report/	
ESG Data Book	For stakeholders interested in our ESG (environmental, social, and governance)-related information, this booklet presents detailed data and policy information regarding our ESG-related initiatives. It is available on our website in PDF format. https://www.duskin.co.jp/english/sus/library/databook	
Corporate Profile	This booklet is mainly intended for people who are interested in learning more about Duskin, such as individuals considering joining Duskin, businesses considering joining a Duskin franchise and corporate customers. It provides a concise summary of Duskin's business and sustainability initiatives. https://www.duskin.co.jp/company/library/pdf/duskin2024e.pdf	

Editorial Policy

Terms used in this report Duskin Corporate Group — Duskin Co., Ltd. and its consolidated subsidiaries; Duskin Group — Duskin Corporate Group and Duskin's affiliated companies accounted for by equity methods; Duskin Family — Duskin Group and its franchisees (including shops, offices and plants) that agree with Duskin's corporate philosophy.	Period covered This report essentially covers the fiscal year ended March 31, 2024 (April 1, 2023 to March 31, 2024). However, it also covers some business activities prior to that year and for the fiscal year ending March 31, 2025.
Scope of coverage This report concerns Duskin Co., Ltd., its affiliated companies and franchised units (offices/shops/factories).	Published in July 2024

Note If the content of the report requires any revision, we will post revised data on our website at <https://www.duskin.co.jp/english>

Forward-Looking Statement

This report contains information on Duskin's ongoing business plans and policies, forecasts and strategies. The information is a future forecast at the time of its disclosure and contains potential risks and uncertainties. Readers are advised that actual results may differ significantly from the forecast as they are subject to a variety of factors including future economic conditions and Duskin's business environment.

1963

The Origin of Duskin

Our founder's philosophy lives on

This is guided by our founder Seiichi Suzuki's enduring life principles reflected in Duskin's philosophy of Prayerful Management. Each day we strive to stay true to his belief that profit is the reward of joyous transactions. Moreover, all of our employees incorporate his philosophy of putting customer happiness first in all aspects of our daily lives.

Seiichi Suzuki, Duskin Founder

Seiichi Suzuki was born in Hekinan City, Aichi Prefecture in 1911. In 1938, he joined Ittoen* to serve others and to live a life of faith. In 1944 he established Kentoku Company. From that time onward, Suzuki followed his principle of Prayerful Management, his purpose being to integrate moral and business goals in both his own and his company's business practices. He founded Duskin in 1963 and paved its path to becoming Japan's first multi-franchise enterprise. Seiichi Suzuki passed away in 1980 at the age of 68.

* This non-religious self-discipline training community based in Yamashina, Kyoto advocates a life with no possession.

Management Philosophy

Day after day, beginning with today
both you and I have a chance
to begin our lives anew.

Whether our lot today be profit or loss,
be spiritually ready for loss.

As a planter would,
let us sow the seeds of joy to every person
we meet each day.

For everyone, for you and me,
may we lead our lives in this world
to the fullest,
realizing our maximum spiritual and
material potential.

Franchising to achieve our business philosophy

National training session for Duskin's franchise chain (1964)

Duskin launched its franchising system with the hope that it would provide opportunities to make dust control into a successful business for people aligned with our philosophy of Prayerful Management. We think of franchising as a system for franchisor and franchisee to share in each other's fortunes and realize growth.

Our Raison d'être

Sowing the seeds of joy for people and society

By sowing the seeds of joy to make people everywhere happy — in addition to pursuing profit, we share our joy with the people in the areas in which we operate. By doing our part to make peoples' lives both materially and emotionally better, we in fact achieve better ongoing corporate value.

Our founder felt that "profit is the reward of joyous transactions." With the wish that everybody who is in any way working with Duskin be happy, he worked throughout his entire life to sow the seeds of joy.

Based on this raison d'être, which is the unchanging value that forms the foundation of Duskin's business, we do our part for the sustainable development of our society and for corporate growth.

Corporate Objectives

1

Duskin strives to unify business and morals.
We pursue both social and economic values.

2

We love our fellow human beings and work
to bring out the best in them.
Through our work, we help people develop.

3

We continuously train and encourage our
employees to take the responsibility to ask
the simple question: "May I help you?" with
sincerity.
Our goal is to be the best in the world.

4

Duskin sows the seeds of joy.
Profit is a barometer of how happy our
customers are.

Message from the President

Pictured in the background is the washing machine and dryer actually used at the time of Duskin's founding. It is displayed at the entrance to the company's Reference Library of Prayerful Management in Suita, Osaka.

Let us connect your heart to the people around you

On November 16, 2023, Duskin celebrated its 60th anniversary. We would like to express our sincere gratitude to our customers and all other stakeholders who have warmly supported our business for more than 60 years to this very day.

想いをつなごう。
その人の、その先へ。

The importance of revisiting our business origins on our 60th anniversary

On the occasion of our 60th anniversary, I asked our employees for two things. One is to revisit the origins of our founding at this 60th anniversary milestone and understand the importance of upholding the founder's intentions. In the words of our founder, if our joy makes others happy, we can both share in that joy and happiness. This means that the joy felt by customers, the people we work with and our families becomes one's own joy, which goes hand in hand with the idea that self-interest is in the realization of the interests of others.

Currently, we operate multiple businesses, all of which collaborate with each other to provide products and services in the hope of enriching the lives and hearts of our customers. This is based on the founder's philosophy of putting customer happiness first, and our franchise agreement requires that franchisees endorse our corporate philosophy. All of what we do is based on the endorsement of our corporate philosophy and having franchisees walk the same path with us, which is pre-

cisely why I believe it is important for every one of us to reflect on the corporate philosophy at the milestone of our 60th anniversary.

The other thing I asked for is that every employee thinks about how they will approach the future. Above our 60th anniversary commemorative logo, we added the following tagline: "Let us connect your heart to the people around you." With highly uncertain times ahead of us, I believe it will become more important than ever before to deliver services brimming with Duskin's unique hospitality as we go about flexibly adapting to changes in the operating environment. It is important for each and every employee to think for themselves what he or she can do to provide valuable products and services and make customers happy. I earnestly hope that each and every one of our employees thinks for him or herself, understands our customers' feelings with a sincere heart and translates that into action so that our company can continue to be of service in the future.

Strengthening existing business lines and embracing the challenge of providing services in new areas

In recent years, individual preferences have diversified, and digital technology has advanced. As such, we must provide products and services in line with these changes. We especially value customer experiences through direct face-to-face interactions with our customers. Of the series of customer experiences before, during and after a purchase, we intend to utilize digital technology for the experiences before and after. For the experience during the purchase, however, we will continue to attach importance to customer interactions based on face-to-face engagement — a strength we have honed since the time of our founding. Through these efforts,

we will seek to further enhance the value we provide to customers.

And, as society continues to undergo significant changes, we will look to further improve the value provided in our existing businesses and take on challenges so that we can be of service in new areas. Recently, in November 2023, we signed a business alliance agreement with JP-Holdings, Inc., an operator of more than 300 childcare support facilities, including nurseries and after-school clubs. We have a track record of meeting the needs of families mainly by providing mop and door mat rentals

and home cleaning and helper services. We will aim to create new value alongside our existing businesses, starting with the provision of healthier living environments where child-raising generations can work with peace of mind and have more time on their hands. Making a foray into this child-raising support field will present a major challenge if we are to remain an essential company to customers and society for many years to come.

Also, as a similar new challenge, in the food business which operates Mister Donut and Katsu & Katsu, in Jan-

Boosting productivity and profitability amid sky-high raw material and labor costs

As for the economic environment, in May 2023, COVID-19 was downgraded to a Category V infectious disease and social activity started to normalize thereafter. One of the most closely watched aspects of the post-pandemic era is the change in lifestyle. The Food Group needs to keep a close eye on trends in demand for takeout and delivery services and respond appropriately. We also recognize how important stable procurement is in the midst of ongoing increases in raw material costs. The price of flour, the primary ingredient used in the Mister Donut business, has stabilized compared with what it once was, but the prices of other ingredients continue to skyrocket, impacted mainly by the weak yen. In addition, we are working to improve productivity in light of rising personnel costs due to such factors as labor shortages.

Meanwhile, in the Direct Selling Group, we are focusing on sales to customers whose operations were affected during the COVID-19 pandemic but are now showing signs of recovery. In addition, as more people are getting out and about, there is a growing demand to

uary 2024 we made Kenko Saien Co., Ltd. a wholly owned subsidiary. This company is the holding company of Boston House Co., Ltd., which operates the Italian restaurant Napoli No Shokutaku, among other establishments. By providing the most suitable brand for each location and customer attributes, we aim to provide our customers with happy moments. Our policy going forward will be to expand the food business by possibly franchising Napoli No Shokutaku restaurants.

reduce the time spent on, and improve the efficiency of, household chores. In our household services, therefore, we are stepping up our efforts to propose solutions tailored to our customers' lifestyles. The activities of our dedicated household sales teams, which were initially subject to testing at our company-owned sales locations and affiliated companies, were brought to franchisees in the fiscal year ended March 31, 2024, resulting in approximately 27,000 new contracts in total. Going forward, we will further expand the number of franchisees that adopt the dedicated sales structure in an effort to generate more opportunities through which we can be of assistance to our customers.

I should also add that the planned attachment of RFID electronic tags to our mat and mop products is now mostly completed, so the manual tallying process can now be carried out simultaneously with an RFID reader instead. This will enable significant improvements in operational efficiency. With these kinds of productivity improvements, we hope to further boost profitability.

The ONE DUSKIN mission will be key in these times of change

In terms of our long-term strategy ONE DUSKIN, we are pursuing ways to leverage the strengths of each business and facilitate collaboration in order to better serve our customers. One example of this strategy yielding results was the establishment and operation of vaccination sites during the pandemic. Spearheaded by our Rent-All business, which plans events and rents out equipment, we were able to provide a comprehensive hygiene management service for vaccination sites by combining our ServiceMaster professional cleaning service with the Clean Service business (rental and sales of hygiene products). Also, considering the frequent occurrence of earthquakes, typhoons and other natural disasters, we provide a disaster response support service to help local governments secure the necessary facility hygiene services and rental products when setting up

evacuation centers during times of a disaster. As of March 31, 2024, we have made disaster response support arrangements with 75 local governments. Each of our businesses, including the Rent-All business, will work closely with these local governments in order to contribute to the safety and security of the community.

In the future, in order for each business to collaborate and deliver value in response to the challenges faced by society and our customers, we recognize the fact that building healthy relationships of trust between the franchise headquarters and franchisees is also crucial. We will build relationships that are even more tight-knit so that we can deliver value creation under the ONE DUSKIN strategy.

Building the foundation for the future begins with delivering results in the final year of the Medium-Term Management Policy 2022

The Medium-Term Management Policy 2022 is progressing as planned. In the fiscal year ended March 31, 2024, sales were up but profit was down. This was in line with plan, chiefly reflecting the sharp increase in cost of sales associated with the installation of RFID tags. In the fiscal year ending March 31, 2025, in the Direct Selling Group we will expand the work of the dedicated household sales teams and open more Care Service business locations. In the Food Group, we will continue to offer appealing products and actively open new shops. On top of these efforts, owing to the efficiency improvements made possible by the use of RFID tags, as well as the decrease in the cost of up-front investments, we believe we can steadily achieve our numerical targets, including an ROE of at least 6%.

On the topic of reforming our business portfolio — one of the themes of the Medium-Term Management Policy — we will press ahead with efforts aimed at bolstering profitability in existing businesses and also work on creating new business lines through business development and M&As.

Our approach in the fiscal year ending March 31, 2025 will be to focus our energy on giving shape to the above-mentioned 60th anniversary logo tagline: "Let us connect your heart to the people around you." As a matter of course, we will serve our current customers, but we also want to provide Duskin's value to their families and acquaintances.

As for our presence overseas, we are developing our businesses primarily in East Asia and Southeast Asia. We are currently expanding the Dust Control and Care Service businesses in the two markets of Taiwan and China. And in the Mister Donut business, we currently manage outlets in five regions. In April 2024, we signed a master franchise agreement with Dragon Circle Enterprise Limited with the objective of expanding into the Hong Kong Special Administrative Region of the People's Republic of China. The first shop is scheduled to open in October 2024. With the business model we have hitherto refined in Japan, our goal is to enrich the lives of customers in other countries.

For the second theme of the Medium-Term Management Policy, establishing a solid foundation, we are emphasizing human capital management in a bid to develop human resources. More specifically, we have built a training platform through which all employees can participate in courses. In particular, we are promoting company-wide training on the subject of digital transformation (DX). The important thing is that all employees continue to learn and grow on a personal level. By maximizing the individuality and capabilities of each person as they continue to accumulate both knowledge and skills, new value for Duskin as a whole can be created.

Also, to further enhance the effectiveness of corporate governance, we will aim to deepen discussions at the meetings of the Board of Directors and appropriately allocate organizational resources with a view to implementing management practices in consideration of capital costs and the share price.

As for the third theme of coexistence with local communities, we are accelerating efforts geared towards the realization of a sustainable society and business management. In the Direct Selling Group, we have tested the use of electric vehicles (EVs), and based on the results of those tests, we plan to gradually switch the vehicles used by staff at our company-owned sales locations to EVs. Also, we plan to transition to renewable energy with non-fossil certification for 100% of the electricity used at five of our facilities, including our head office building. In addition, we are providing waste raw materials generated at Mister Donut distribution centers to power companies that supply biomass electricity. We will continue to implement these initiatives in order to achieve the goals of Duskin Green Target 2030.

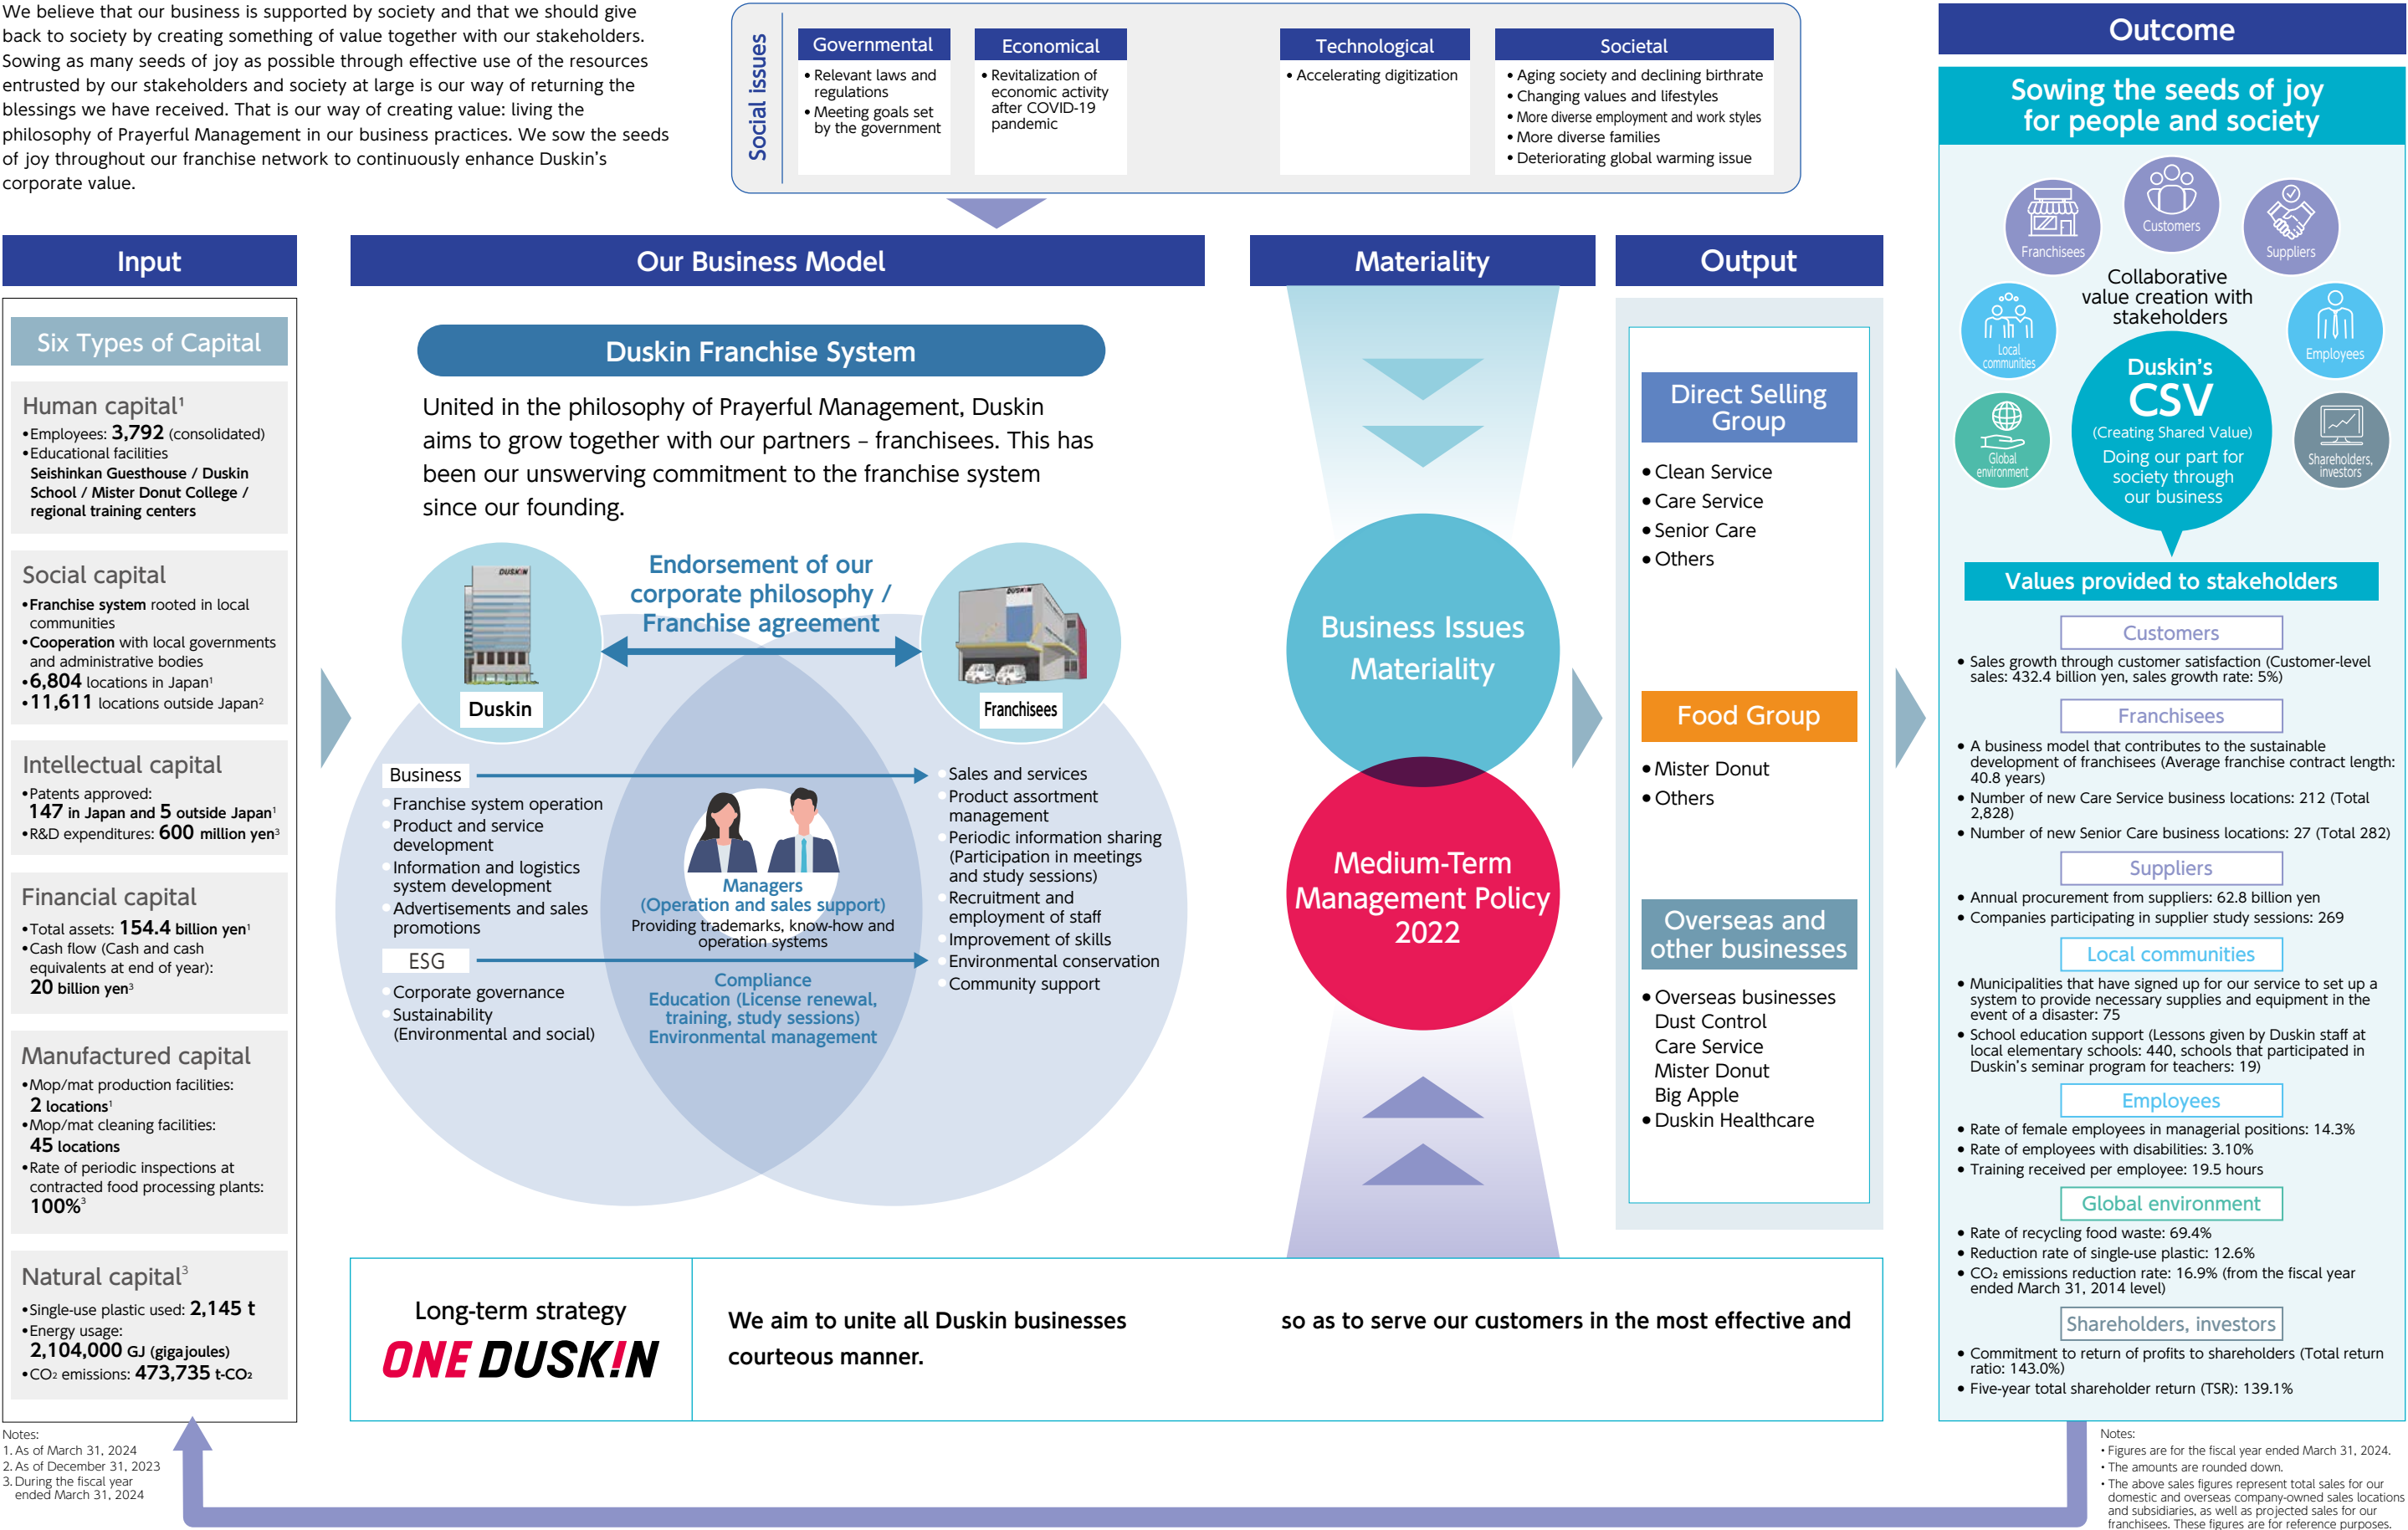

This fiscal year will be the final year of the implementation period of the long-term strategy ONE DUSKIN. We will unite all Duskin businesses so as to serve our customers in the most friendly and welcoming manner. And in order to do our part for society through our business, we will always remain grateful to our stakeholders as we steadily execute the measures of the Medium-Term Management Policy 2022. In closing, I would like to thank you once again for your unwavering support.

大久保裕行

Hiroyuki Okubo
Representative Director,
President and CEO

Our Value Creation Process

We believe that our business is supported by society and that we should give back to society by creating something of value together with our stakeholders. Sowing as many seeds of joy as possible through effective use of the resources entrusted by our stakeholders and society at large is our way of returning the blessings we have received. That is our way of creating value: living the philosophy of Prayerful Management in our business practices. We sow the seeds of joy throughout our franchise network to continuously enhance Duskin's corporate value.

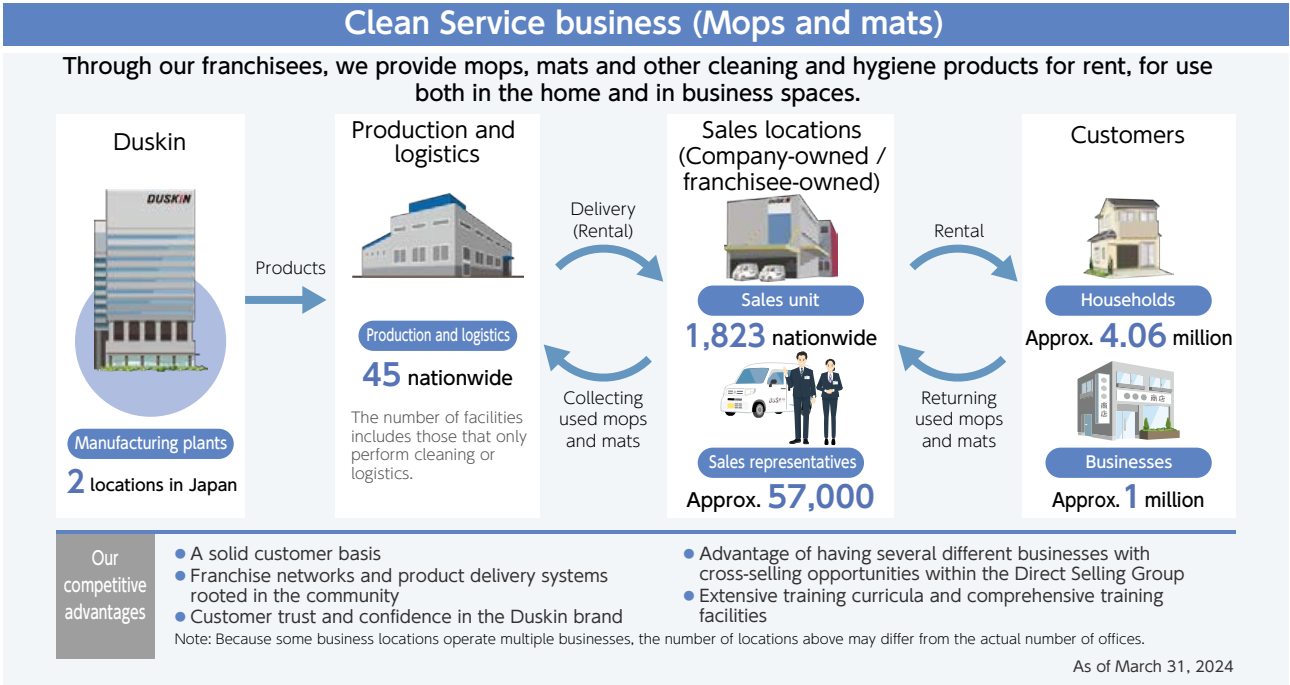

How Duskin's Value Creation Process Works

Our business model

Duskin's business model is broadly divided into two franchise systems: the Clean Service business focused on mop and mat rentals and the Mister Donut business.

The Clean Service business rents and sells cleaning and hygiene products to household and business customers through franchisees. The Mister Donut business provides a fun experience and always-delicious products at shops where "every customer can happen upon 'something good' at any time." Both of these business groups depend on our unique franchise system.

Note: The above sales figures represent total sales for our domestic and overseas company-owned sales locations and subsidiaries, as well as projected sales for our franchisees. These figures are for reference purposes.

Inputs

Human capital

Duskin encourages its employees to respect other employees and to reach their full potential regardless of their gender, age, nationality or career background so that they can create new value and excellence by successfully meeting the challenges of a changing business environment and responding accurately to ever more diverse customer needs.

Financial capital

A solid financial foundation and stable cash flow generated by profitably healthy and sustained businesses is what creates new businesses. Sound financial capital also provides solid support for business sustainability and stakeholder value creation even when natural disasters or other unexpected risks occur.

Intellectual capital

Owning and making full use of patents and expertise, brand and data assets, and other intellectual assets bolsters competitiveness and reduces the costs of such risks as unfair competition while also contributing to the development of new products and services, higher productivity and lower costs.

Social capital

The foundation of franchisee human resource development is endowing the owners and staff doing business in their own regions with Duskin's commitment to excellent service. By ensuring Duskin service quality, we sow the seeds of joy that truly meet the needs of customers in each community.

Manufactured capital

Duskin plants and contracted plants that provide one-of-a-kind products and services are capital of indispensable importance. For the contracted manufacturing plants that process products and raw materials, we conduct periodic inspections, and constantly strive to make improvements and enhancements to quality.

Natural capital

Duskin has built and grown an environmentally friendly, recycling-oriented hygiene and cleaning product rental business. Today, in every business domain we are reducing environmental impact for all processes, from raw material procurement to product manufacturing, after-use collection and resource recycling.

Stakeholder

Stakeholder	What our stakeholders expect of Duskin	Opportunities for dialogue
Customers	Safe, reliable and high-quality products and services, a commitment to customer satisfaction through comfort and great taste, prompt and reliable customer support	Consumer gatherings, Contact Center, fan meetings, Duskin website
Franchisees	A business model based on mutual growth, marketing support that boosts brand power and competitiveness, enhanced training programs and operational support	Support by our supervising managers, franchisee award programs, franchisee associations
Suppliers	Long-term relationships, highly fair and transparent business terms and conditions, a business approach that promotes mutual trust and cooperation	Supplier Study Sessions, Duskin Purchasing Clean Line
Local communities	Revitalization of local economies, employment creation, contribution to local communities, contribution to environmental preservation, strong partnerships with local communities	Supporting local schools and education, Clean Up My Town (trash pickup), laundry plant tours, Duskin Museum, education for fraud prevention
Employees	Fair evaluation and appropriate treatment of employees, diverse opportunities for career advancement, a healthy and safe work environment, ample employee benefits	Labor-management council, Occupational Health and Safety Committee, whistleblowing hotlines, training programs, employee survey
Global environment	Development of environmentally friendly products and services, sustainable resource use and reduction of environmental burden, promotion of environmental conservation	Duskin Green Target 2030 initiative, cooperation for the conservation of the Hakusan National Park ecosystem, abiding by the Ordinance on Global Warming Prevention
Shareholders, investors	Transparent business practices and proper information disclosure, stable growth and reliable profitability, long-term increase in shareholder value	Integrated Report, Investors' Notes, financial results briefings, company briefings for individual investors, meetings with shareholders and institutional investors

Review of Medium-Term Management Policies

Phase I		Phase II		Phase III	
Fiscal year ended March 31, 2016 to fiscal year ended March 31, 2018		Fiscal year ended March 31, 2019 to fiscal year ended March 31, 2021			
Medium-Term Management Policy 2015		Medium-Term Management Policy 2018			
Basic policy	In achieving our nine-year long-term strategy ONE DUSKIN, we position Phase I as the phase to ensure the penetration and implementation of this strategy, and we will focus on improving our earnings.	In Phase I, we laid the foundation for a new business model. In this second phase, we will further develop it and materialize the "ONE DUSKIN" structure, which is the goal of our long-term strategy. In doing so, we will improve our earnings and reform our corporate structure to achieve sustainable growth.			
Subjects	<ul style="list-style-type: none">① Establish a business model Establish a system that enables Duskin and franchisees to share and utilize customer information.② New growth strategy Focus on developing new businesses, while expanding overseas operations of Clean & Care and Mister Donut.③ Structural reforms Focus on improving profitability by reviewing the cost structure of procurement, production, logistics and information systems.④ Strengthen corporate governance Enhance corporate governance based on the concept of fair and transparent corporate management and also as part of our growth strategy.	<ul style="list-style-type: none">① New growth strategy New business development, M&A, strengthening business alliances with government and other entities<ul style="list-style-type: none">• Establish a brand that meets the needs of growing markets in Asia.② Expand existing businesses<ul style="list-style-type: none">Direct Selling Group<ul style="list-style-type: none">• Become a general point of contact for all aspects of family life, not just for housekeeping.• Move away from being a mere hygiene management supporter and become a business partner offering all kinds of hygiene management know-how.Food Group<ul style="list-style-type: none">• Enhance brand value• Secure profitability of existing shops and promote multiple shop expansion after confirming the future potential.③ Strengthen corporate structure Strengthen corporate functions and reallocate human resources to growth businesses.			
Results	As the needs and consumption behavior of our customers diversify, we have achieved positive results in transforming our business model and other aspects of our operations to enable customers to use our new framework, products and services. Fiscal year ended March 31, 2018: Consolidated net sales of 161.0 billion yen / Consolidated operating profit of 7.5 billion yen	We were able to advance the development of our existing businesses and accelerate our efforts toward new growth. We also achieved some positive results in strengthening our corporate structure. Fiscal year ended March 31, 2021: Consolidated net sales of 153.7 billion yen / Consolidated operating profit of 4.6 billion yen			
Issues to be addressed	<ul style="list-style-type: none">• The Clean & Care Group* needs to establish a concierge system in which door-to-door sales reps play a central role. The Group also needs to improve the system by which Our specially trained Hygiene Masters can propose ideal hygiene management to their customers.• In the Mister Donut business, despite an increase in sales per shop in operation, total sales declined due to delays in shop openings while the number of existing shops is decreasing. We need to push forward our efforts to rebuild our brand.	<ul style="list-style-type: none">• In order to respond to an external environment changed by the coronavirus pandemic, we need to accelerate information and distribution reform by way of further digitalization in existing businesses.• We need to be proactive in investing in new growth opportunities with an eye on the future, whether through M&A or venture capital investments.• We need to strengthen our business base to support investment in new growth opportunities and expansion of existing businesses.• We need to be proactive in the areas of ESG and SDGs.			

* Effective April 1, 2018, the Clean & Care Group has been renamed the Direct Selling Group.

Operating profit

Medium-Term Management Policy 2022

Duskin formulated Medium-Term Management Policy 2022 (for the three years from the fiscal year ended March 31, 2023 to the fiscal year ending March 31, 2025) as Phase III of its long-term strategy ONE DUSKIN. Over the three years, we are solidifying the foundation created in Phases I and II and steadily implementing initiatives to complete our long-term strategy ONE DUSKIN in order to further enhance our corporate value as a company that remains valuable to society.

Medium-Term Management Policy 2022 Basic Policy

Unify business and morals by reforming our portfolios to address the changing business climate and solve social issues

Numerical Targets (Consolidated)

Fiscal year ending March 31, 2025: Net sales of 189 billion yen / Operating profit of 10.7 billion yen / ROE of 6% or more

Initiatives Based on the Three Strategic Themes

		Subjects	Progress (during the fiscal year ended March 31, 2024)
Theme 1 Reforming our business portfolios	Reforming and expanding existing businesses	<ul style="list-style-type: none">■ Direct Selling Group To pursue our goal of helping both residential and commercial customers "fine-tune the rhythm of their daily lives," we will focus on the three domains: work-life management, senior support and hygiene and cleanliness.■ Food Group With the goal of creating shops where "anyone and everyone can enjoy happy moments at any time," we seek to deliver delicious taste and fun to customers.	<ul style="list-style-type: none">■ Direct Selling Group<ul style="list-style-type: none">• Introduced to franchisees a framework of sales teams dedicated to visits to residential customers.• Started joint business with our new business partner, Qracian Co., Ltd.• Commercialized Duskin Rescue, a rapid response service for home emergencies.■ Food Group<ul style="list-style-type: none">• Made Kenko Saien Co., Ltd., the holding company of Boston House Co., Ltd., which operates Napoli No Shokutaku Italian restaurant, a subsidiary.• Expanded delivery service.• Renewed the official Mister Donut smartphone app.
	Investment in new growth opportunities	<ul style="list-style-type: none">■ Business alliance<ul style="list-style-type: none">• In order to create social value, we will actively invest in areas where we can generate synergies with existing businesses and in areas where we can maintain lifelong relationships with customers.■ Overseas business development<ul style="list-style-type: none">• In addition to growing our businesses in the countries where we already operate, we will study the possibility of expanding into other Asian countries where we do not yet operate, and when possible, we will take action accordingly.	<ul style="list-style-type: none">■ Business alliance<ul style="list-style-type: none">• Signed a business alliance agreement with JP-Holdings, Inc.■ Overseas business development<ul style="list-style-type: none">• Opened two Mister Donut shops in Singapore.• Introduced a household cleaning service in Taipei, Taiwan.• Opened our official e-commerce site for overseas customers.
Theme 2 Establishing a solid foundation		<p>Strengthening human and technology resources; reinforcing management systems for our organization and businesses</p> <ul style="list-style-type: none">• Promote human capital management• Strengthen R&D• Establish an organization and operational structure best suited to realize both company-wide and business-specific strategies• Strengthen management to focus on core competencies• Further improve governance effectiveness• Build a foundation for growth by promoting digital transformation	<p>Human capital management</p> <ul style="list-style-type: none">• Introduced an educational tool that allows employees to learn new technologies and skills.• Implemented a personality test and growth measurement test to help employees increase their self-understanding. <p>Digital transformation (DX)</p> <ul style="list-style-type: none">• Appointed dedicated personnel to implement a company-wide DX.• Set up a dedicated department to spearhead our cloud migration.• Largely completed the RFID tag installation.
Theme 3 Coexistence with local communities		<p>Contributing to the creation of a sustainable society and strengthening our corporate governance geared to the needs of society</p> <ul style="list-style-type: none">• Contribute to the sustainability of society.• Make efforts to preserve the global environment.• Implement initiatives for sustainable corporate management.	<ul style="list-style-type: none">• In order to reduce food loss and waste, increased the number of shops capable of adopting the recycling program of waste donuts as animal feed.• Conducted evaluation tests on converting Direct Selling Group sales vehicles to EVs.

Duskin at a Glance

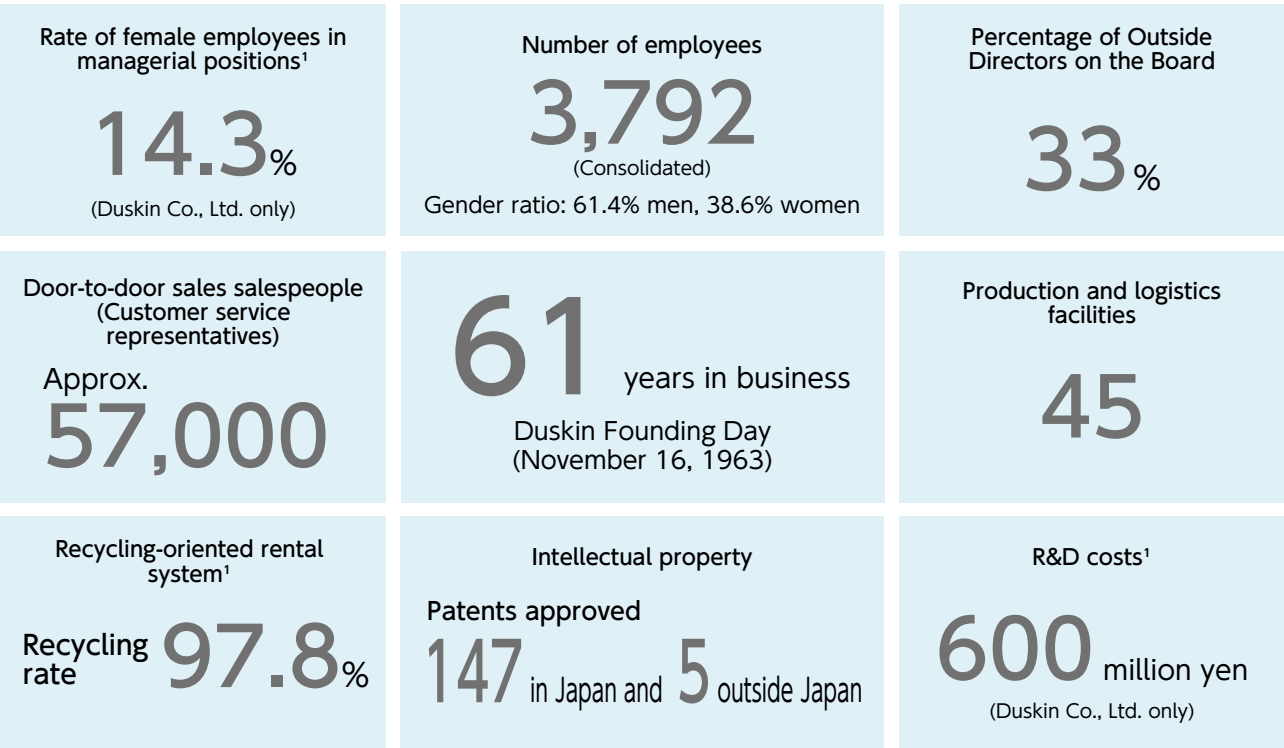

At Duskin, our business is centered on the franchise system. Duskin's history of providing products and services that meet the ever-changing needs of the times and the demands of society is the accumulation of our practice of sowing the seeds of joy.

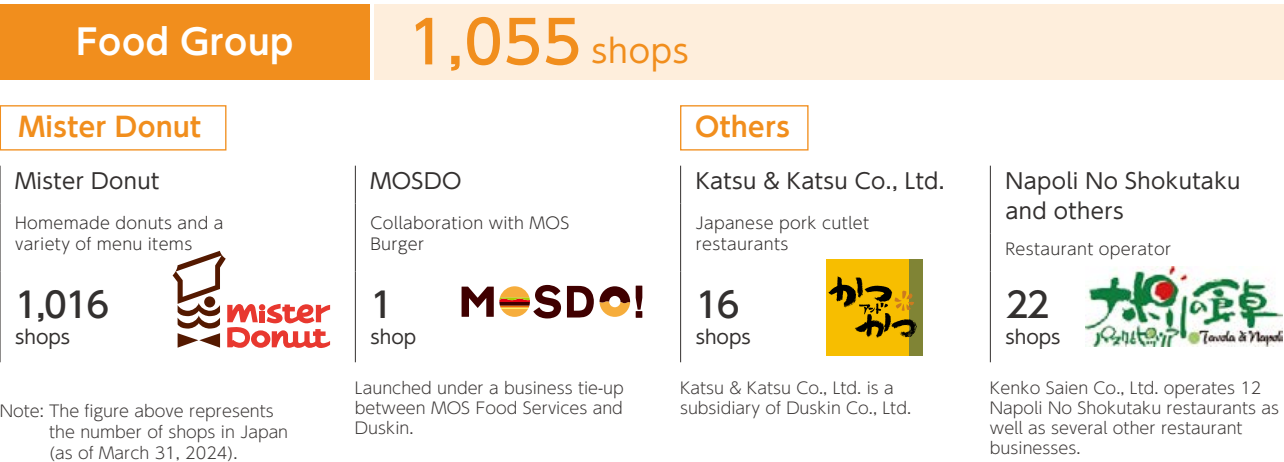

Note: Figures are for the fiscal year ended March 31, 2024.
1. Business segment sales include intersegment sales. Sales composition ratio is calculated excluding intersegment sales.
2. Customer-level sales are presented as a reference and represent the total of sales at company-owned and subsidiary locations and the estimated sales at franchised locations.

Notes:
• The number of locations, franchise units and shops represents domestic operations only, as of March 31, 2024.
• The number of locations for the Direct Selling Group represents the number of franchise agreements. (Sales promotion offices, regional offices and area manager offices are not included.)
• Because some business locations operate multiple businesses, the number of locations above may differ from the actual number of offices.

Note: Figures are as of March 31, 2024.
1. The figure is for the fiscal year ended March 31, 2024.

• The number of sales locations above is as of December 31, 2023.
• The Mister Donut business locations include shops operated under master franchise agreements.
• Shops for specific events and limited-time-only shops, which were included in the number of locations in the previous fiscal year, are not included this fiscal year.

Together with Our Customers and Franchisees

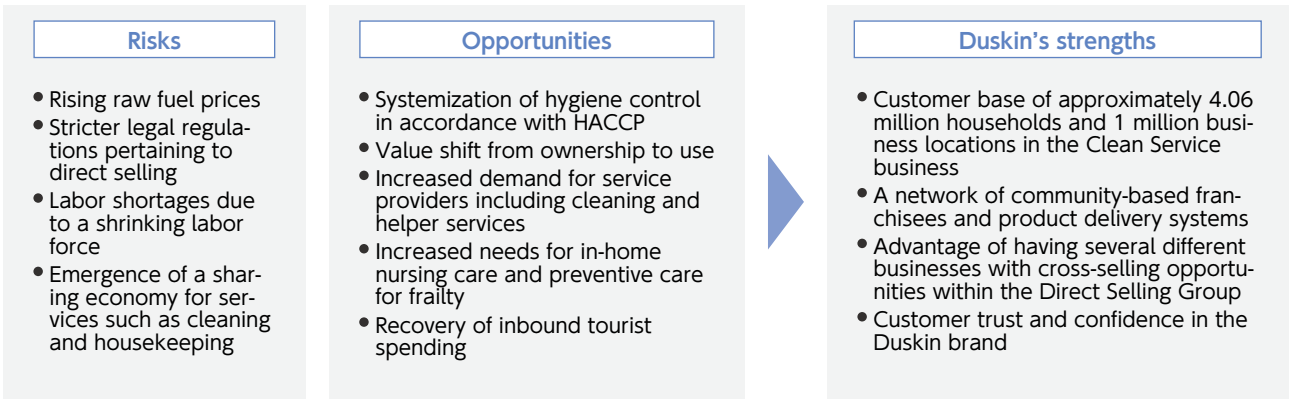

Direct Selling Group

The Direct Selling Group will continue to evolve by expanding and further enriching its full-range of businesses, spanning the three areas of work-life management, senior support and hygiene and cleanliness. In addition, each of our businesses, including the mainstay Clean Service, will literally work together as ONE DUSKIN as we strive to become close, lifelong partners of our customers in an effort to find solutions to the daily concerns they have.

Kazushi Sumimoto
Board Director and COO
Direct Selling Group

Environmental analysis

Business results overview

As our mainstay Clean Service business introduced the framework of sales teams dedicated to sales visits to households at our company-owned sales locations and affiliated companies, the number of customers in those sales channels began to increase during the previous fiscal year. This framework of sales teams is now being introduced to franchisees, where they are also achieving results in winning new customers. In addition, the number of Clean Service orders received through our website and other digital channels increased; and, as a result, the decline in the number of customers narrowed.

In Care Service, customer-level sales of ServiceMaster (professional cleaning services) grew thanks to healthy sales of air conditioner cleaning services, while the periodic services of Merry Maids (home cleaning and helper services), Terminix (pest control and comprehensive hygiene management), and Total Green (plant and flower upkeep) recorded solid growth.

Event orders for Rent-All are returning to their pre-pandemic level. Rent-All also focused on expanding its disaster response support service, which provides support for supplying local governments the supplies and equipment they need should a disaster strike. Among other businesses, cosmetic business sales declined, while Health Rent (rental and sales of assisted-living products) continues to record solid sales and uniform-related businesses and Life Care (support services for seniors) also increased sales.

Operating profit and operating margin

Medium-Term Management Policy 2022 initiatives

The Medium-Term Management Policy 2022 focuses on three domains: the work-life management domain, which helps workers and their families create more spare time and live more fulfilling lives, the senior support domain, which now includes services for the early elderly and the active elderly, and the hygiene and cleanliness domain, which leverages Duskin's many decades of cleanliness expertise. Work-life management in particular is expanding its domain by cultivating new areas of business, such as the Duskin Rescue emergency locksmith service. Moreover, as a way to build relationships with new customers, we are introducing new cartoon and other popular character merchandising to expand our customer touchpoints. In addition, to strengthen connections with existing customers, we operate DDuet, a members-only website with a function that can suggest products and services customized for each member. Through initiatives like these, we are focusing on enhancing the customer experience.

Customer-level sales (Years ended March 31)

Billions of yen		2020	2021	2022	2023	2024
Clean Service	For residential customers	87.4	84.0	82.1	81.7	79.3
	For commercial customers	94.6	90.5	90.1	91.8	90.4
Care Service	ServiceMaster	29.6	30.0	32.0	32.1	33.1

	Uniform Service	3.3	3.0	3.1	2.8	3.0

The above sales figures represent total sales for our domestic company-owned sales locations and subsidiaries, as well as projected sales for our franchisees. These figures are for reference purposes.

Together with Our Customers and Franchisees

Food Group

Guided by its slogan “something good’s gonna happen,” Mister Donut, the Food Group’s core business, strives to provide delicious taste and fun at shops “where anyone and everyone can enjoy a good time every time.” Efforts to make shops even more convenient and inviting include opening shops in new types of locations and introducing online ordering. Mister Donut is also focusing on merchandizing, such as product tie-ups with other companies. In addition to these business-related initiatives, we are contributing to environmental preservation, clarifying its reduction targets for plastic usage, food loss and waste and CO₂ emissions.

Tetsuya Wada
Board Director and COO
Food Group

Environmental analysis

Business results overview

The Food Group posted increases in both sales and profits, as the mainstay Mister Donut business continued to perform well. At Mister Donut, both customer traffic and sales per customer increased. Mister Donut also saw an increase in raw material and royalty sales as the number of shops in operation increased due to new shop openings.

By product, commemorative campaign products for long-selling, mainstay products, MISDO Meets products developed jointly with other companies and the MISDO GOHAN series catering to the consumer demand for light meals all enjoyed strong sales. In addition, seasonally limited products and collaborative products incorporating popular characters from other brands have also become popular staples among customers, contributing to these solid results.

Among other Food Group businesses, sales increased for Katsu & Katsu pork cutlet restaurants, while Pie Face pie specialty shop discontinued business as of March 31, 2024.

Net sales

Operating profit and operating margin

Medium-Term Management Policy 2022 initiatives

In order to give customers even more reasons to use our products and services, for a three-year period starting from the fiscal year ended March 31, 2023, Food Group core business Mister Donut is promoting the popular and jointly developed MISDO Meets series as well as seasonal products. Moreover, in addition to existing shops, our shop opening strategy is focusing on locations where we have yet to open shops, including shops with drive-through service in suburban locations and kitchen-less shops inside train stations. What's more, in order to provide our customers with new service value, we are reorganizing our information and distribution by improving our online ordering system, expanding the number of shops with delivery service and introducing product pickup boxes.

Continue to Provide Delicious Taste and Fun

New business model development

Develop new business models that cater to different locations, customer base and needs than the existing brands.

Strengthening of the current value chain

Realize in-house processing of key raw materials and in-house distribution in existing businesses.

Merchandising

Create new products and sales opportunities leveraging the brand.

Improve Convenience of Existing Businesses

Information and distribution reforms

1. Product/service development strategies

Motivate customers to purchase our products more often

Achieve better communication by leveraging our strength in face-to-face customer communication and also by proactively using new digital technology.

2. Location strategies

Open shops in suburbs and urban areas

3. CX strategies

Add new values to the customer experience

Information and distribution reforms

Food Group

Major initiatives planned

- Comfortable work environments
Acquire human resources through enhanced productivity
- Develop new businesses
Develop Italian Restaurant Napoli No Shokutaku and work on a franchise package for the business
- Information and distribution reforms
Use digital tech to respond to such customer concerns as “no shop nearby,” “doesn’t have what I want” and “want to buy but have to wait.”

Left: Napoli No Shokutaku
Right: Katsu & Katsu

Mister Donut

Major initiatives planned

- Develop new products that motivate customers to visit a shop
- Develop plans for new shops that meet customer and franchisee expectations, and open such shops.
- Apply digital media (apps, SNS) to expand customer contact points and increase customer satisfaction

Others	0.7	0.4	0.4	0.06	0.03

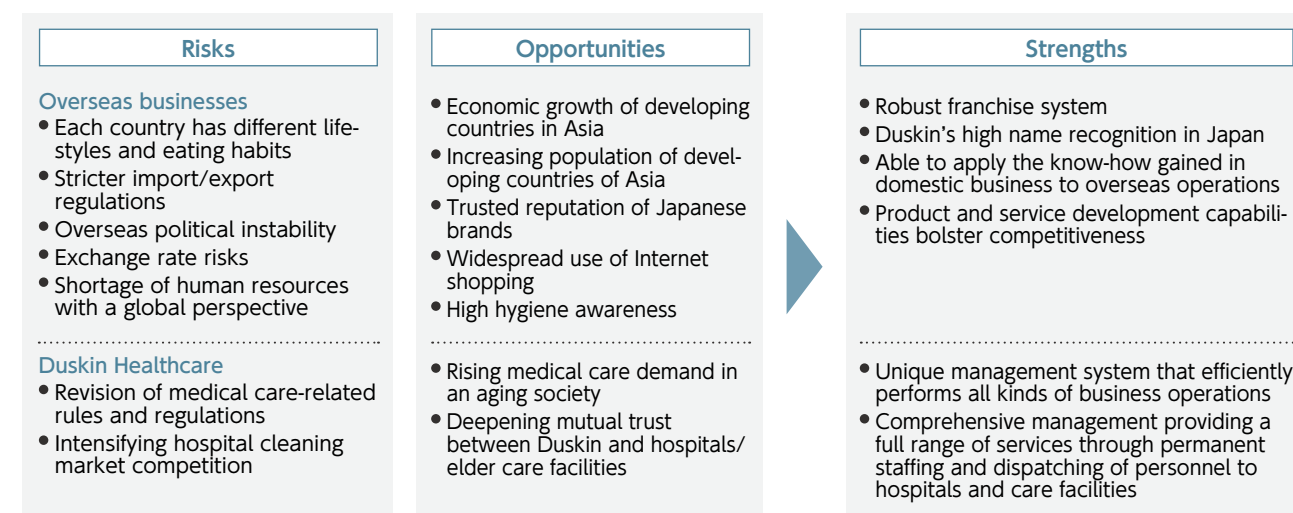

Katsu & Katsu Co., Ltd. is a subsidiary of Duskin Co., Ltd.

Together with Our Customers and Franchisees

Overseas and Other Businesses

The Other Businesses segment include two overseas consolidated subsidiaries: Duskin Shanghai Co., Ltd., which operates a rental and sale of dust control products business in China, and Big Apple Worldwide Holdings Sdn. Bhd., which develops overseas donut businesses, mainly in Malaysia. The segment also includes two Japanese consolidated subsidiaries that do not operate franchises: Duskin Kyoeki Co., Ltd., a leasing and insurance agency, and Duskin Healthcare Co., Ltd., which provides medical facility management services.

Business environment analysis

Business results overview

Despite increased domestic consolidated subsidiary sales, sales decreased for the Other Businesses segments due to a decrease in sales of overseas businesses. Operating profit also decreased due to the lower gross profit as a result of declined sales and due to such factors as higher domestic consolidated subsidiary personnel costs.

Domestic consolidated subsidiaries Duskin Healthcare Co., Ltd. and Duskin Kyoeki Co., Ltd. both increased sales, but higher cost of sales and expenses due to such factors as higher personnel costs resulted in decreased profits for both.

Among overseas businesses, Duskin Shanghai Co., Ltd. recorded decreased sales, while Big Apple Worldwide Holdings Sdn. Bhd. recorded decreased sales due to fewer customers visiting shops due to changes in customer behavior as the coronavirus pandemic subsided. As a result, sales were lower than the previous fiscal year.

Medium-Term Management Policy 2022 initiatives

Among Duskin's overseas companies, Duskin Hong Kong Co., Ltd. was our base for expanding into China and mainly handled the trade of raw materials and of equipment and supplies for Duskin. Going forward it has been decided to relocate Duskin Hong Kong's trading functions to Japan and to dissolve the company in order to improve business efficiency and profitability.

In the meantime, to further expand our business overseas, Duskin has decided to expand the Mister Donut business to Singapore and Hong Kong by concluding master franchise agreements in both regions. Looking ahead, we intend to continue expanding the business, with a focus on southeast Asia. In addition, we have launched a business specializing in housecleaning services in Taiwan and opened an official online shopping site featuring household cleaning and hygiene products targeting five regions—Australia, Korea, Singapore, Thailand and Hong Kong—as part of our effort to strengthen our overseas business.

RE & S Enterprises Pte Ltd, with whom we concluded a master franchise agreement for the Mister Donut business, opened two Mister Donut shops in Singapore.

Duskin

Providing comprehensive cleaning and hygiene services centered around our dust control business in two regions

2 regions Taiwan, China

Mister Donut

Providing delicious donuts together with our corporate partners, mainly in Asia

5 regions Thailand, Philippines, Taiwan, Indonesia, Singapore

Big Apple

Halal-certified overseas donut brand providing simple yet delicious donuts

2 regions Malaysia, Cambodia

At Duskin Healthcare Co., Ltd., our goal is to provide medical and nursing care facilities with comprehensive hygiene management solutions that are both safe and reliable. Our solutions help solve human resource short-ages and prevent accidents at medical and nursing care facilities. The company is also working to improve work efficiency and quality through such measures as digitalizing tasks and introducing cleaning robots. In addition, 2024 is Duskin Healthcare's 40th year, and to commemorate this milestone, we will mark the year by renewing our commitment to practicing our guiding philosophy of doing business that "unifies business and morals."

Customer-level sales (Years ended March 31)

	Billions of yen	2020	2021	2022	2023	2024

Mister Donut		14.4	11.3	12.1	16.0	18.9
Big Apple		1.2	1.1	1.5	2.0	1.9
Duskin Healthcare		8.3	8.4	8.5	8.6	8.8

Note: Overseas customer-level sales figures are totals for January through December in order to align with the fiscal years of consolidated overseas subsidiaries.

Together with Local Communities and Suppliers

Duskin is both a corporation and a member of the local community. Guided by our slogan “sowing the seeds of joy,” we engage in all kinds of activities dedicated to bringing people together and fostering partnerships with local communities.

Prospering together with the community

One of our goals is to contribute to the safety and comfort of the community and to revitalize the local economy. We are working to build new forms of partnerships and relationships of coexistence and co-prosperity with the local community. This includes providing on-site classes for children on the importance of cleaning and offering suggestions and support to help companies create a healthy and safe work environment.

Supporting local schools and education

Motivated by our conviction that cleaning can help develop the abilities of children, Duskin has been conducting research on cleaning education since 2000. We also conduct seminars for teachers, give on-site classes to elementary school students on the importance of cleaning, and have made publicly available a cleaning education curriculum for elementary and junior high schools.

Our seminars for teachers have received high praise from many teachers, as they provide an opportunity to reaffirm the need for cleaning education and to think about its potential. The on-site classes for children give them the opportunity and enjoyment of learning the significance of cleaning and the proper use of tools through hands-on experience.

As a company involved in cleaning and hygiene, Duskin is also involved in environmental measurement and verification in school cleaning and proposing new methods of cleaning in schools.

On-site class on the importance of cleaning

A seminar for teachers on our cleaning education

Providing rapid response for setting up evacuation centers during natural disasters

Through its franchisee network, Duskin works to deepen ties with local communities and help find solutions to social issues. In July 2022, Rent-All (comprehensive event support) launched a service to set up a system of nationwide bases that can provide the supplies and equipment needed in the event of a disaster. Through this service, Rent-All collaborates with Clean Service and Care Service on renting out some 100 different items that local governments need to set up evacuation centers during natural disasters and on utilizing Duskin facility hygiene solutions nationwide. Moreover, Duskin also provides support to communities in conducting disaster drills, thereby contributing to the safety and peace of mind of the communities. Specifically, we provide services ranging from setting up emergency drill sites to hygiene management and supplies and equipment rentals. Also, by concluding agreements that stipulate the supply of necessary supplies and equipment in advance with Duskin Rent-All, local governments receive fast and efficient support for setting up evacuation centers should a natural disaster occur.

Support flow during a disaster

Providing safe, reliable and sustainable products and services

To ensure that we provide customers and consumers with safe and reliable products and services, we have built and put into practice a complete quality control system based on our Quality Policy. Also, to ensure sustainable and responsible procurement, we make an effort to strengthen our partnerships with suppliers.

For details about our Quality Policy, please refer to the following web page.

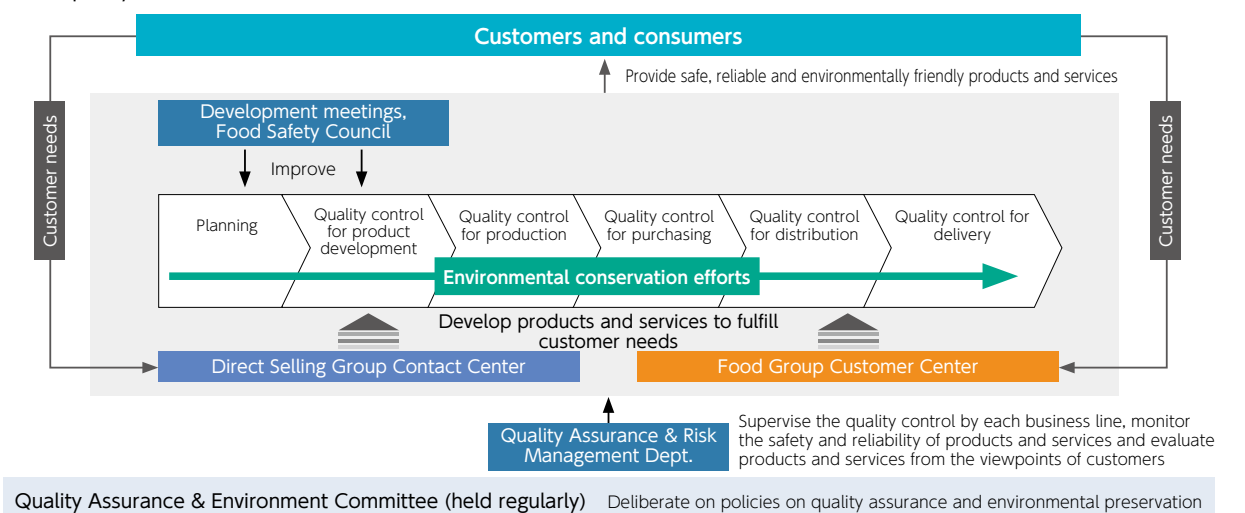

<https://www.duskin.co.jp/english/sus/social/philosophy/>

Quality assurance framework

To ensure that all our products and services are safe and reliable, we have established a quality assurance framework that covers all products from development to after launch. We have also set up the Quality Assurance & Environment Committee, which meets regularly to deliberate on the guidelines of quality control and assurance and the environment.

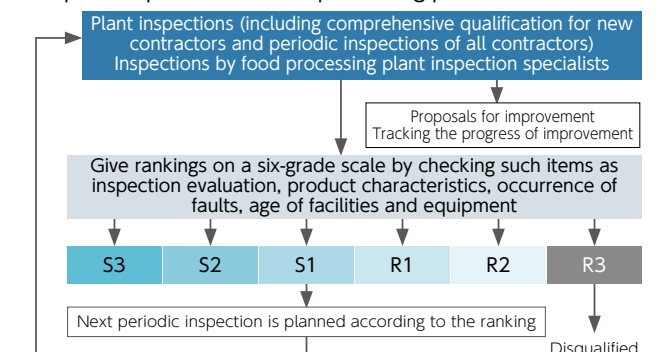

How our quality assurance framework works

Inspections of contracted food processing plants

For the contracted plants manufacturing our products, we conduct several types of inspections, including comprehensive qualification for new contractors, inspection of their production operation and periodic inspections of all contractors, as part of our efforts for continuous improvement. Our inspection specialists for food processing plants conduct extensive quality inspections, including facility management, process management, sanitary management and production management. All plants are evaluated and ranked by the results of inspections and other evaluation items. Periodic inspections are conducted regularly (approximately once in every three years) depending on the plants' rankings.

Inspection process for food processing plants

A Closer Look

Inspections of suppliers on environmental and social issues

Negative impacts on the environment arising from the use of palm oil refined from oil palm fruit has been a growing concern in the world, because the development of oil palm plantations destroys tropical rainforests. When Duskin uses these kinds of raw materials, we establish a procurement network with the partnered suppliers to ensure fair and legitimate business practices.

Inspection of an oil palm plantation

Together with Employees

At Duskin, we strive to create a comfortable work environment in which each and every employee can balance work and personal life in a healthy and rewarding way while working with vigor and enthusiasm. Specifically, we support employees in achieving their career visions and promote reforms in work styles and health-focused corporate management.

Social needs and challenges

- More diverse employment and work styles
- Increase in one-person households and working couples
- Intensifying competition for talented personnel due to shrinking working population

Risks and opportunities

- Loss of business opportunities from outflow of talented personnel
- Declined organizational competence due to a lack of diversity
- Higher employee loyalty by hiring and developing talented and diverse employees
- Higher labor productivity and better health by creating rewarding work environments

Materiality

Employees' growth and career development

Diversity and inclusion

Work-style reform and health-focused corporate management

Targets for the fiscal year ending March 31, 2025

- At least 20 hours of training per person per year, with no employees who have not yet participated in training programs.
- Rate of respondents feeling fulfilled in their career in employee surveys: 80% or higher in all generations
- Ratio of women in management positions: 13% or higher
- Ratio of employees with disabilities: 3% or higher
- Total annual hours worked per employee: 1,800 hours or less

Supporting employees' growth and career development

Duskin considers people the core of all of our services. In order for our customers to feel the value of our attentive care, knowledge and skill must be accompanied by warm consideration for others. Based on this idea, Duskin promotes the development of competent and caring personnel through a variety of education and training programs. These programs are designed to help employees recalibrate their motivation to contribute to the company by reconfirming their abilities and renewing their awareness of their roles, while also providing them with opportunities to reflect on their own career development.

Company-wide training system

Type	Level-specific	Skill enhancement	Career development	Outside training for selected employees	Company-wide	Personal development	Business division-specific
Manager-level	MBA correspondence course	Training for managerial personnel supervising other staff members	Career design study sessions for members at ages 33, 43 and 50	Training course to develop executives	Study session for Prayerful Management	Manager training program

Junior staff	Training for junior staff	Third-year review program		Informal leadership			License acquisition/renewal training
Assistant staff	Six-month/first-/second-year review program						
	Training for new employees	Ittoen Chitoku training					

A Closer Look

Reskilling and digitally savvy personnel development

As part of its human capital management efforts and as one way to help employees learn autonomously, Duskin introduced Udemy Business, an online education platform that allows employees to learn whenever they want. Through this platform, we provide employees with the opportunity to acquire knowledge about their current work and to learn what they need to do to grow further. In addition, from April 2024, to improve digital literacy throughout the company, educational content about the basics of DX has been incorporated into the employee training curriculum.

Diversity and inclusion

We believe that only when employees of various career and social backgrounds (sex, age, nationality and lifestyle) respect one another and use their abilities to the fullest can we effectively respond to a constantly changing business environment and ever more diverse customer needs. We also believe that employee diversity creates new value and excellence. In order for our employees to be able to work with enthusiasm and a sense of fulfillment, and thereby revitalize our company, we promote hiring and promoting skilled and motivated individuals and creating a workplace environment where staff work hard together and fully demonstrate their abilities and experience.

Goals for ensuring diversity in hiring and promotion

	Targets	Target fiscal year (ending March 31)
Ratio of women in managerial positions	13% or higher	2026
Ratio of mid-career hires in managerial positions	33% or higher	2026
Ratio of foreign nationals in managerial positions	4% or higher	2026
Ratio of employees with disabilities	3% or higher	2025

Notes:
• The target values for the ratios of women in managerial positions and mid-career hires in managerial positions are for Duskin Co., Ltd. only.
• The target value for the ratio of foreign nationals in managerial positions is for both domestic and overseas Duskin Group companies.
• The target value for the ratio of employees with disabilities is for Duskin Group companies in Japan.

Empowering women in the workplace: Effective use of diverse human resources to enhance corporate value and vitality requires a workplace environment that enables women to reach their full potential. In accordance with the Act on the Promotion of Female Participation and Career Advancement in the Workplace, we have formulated our third action plan through the fiscal year ending March 31, 2026 and are implementing a number of initiatives from the perspective of skill development, offering women greater

opportunities, creating a more supportive workplace and culture.
Appointing mid-career hires in managerial positions: Most of the personnel who join the company mid-career and become managers are so-called "career-track employees" or management-class candidates. Under the new personnel system introduced in April 2022, we have introduced what we call a "job-based employment" system. In addition, we have established a new personnel classification called "Senior Specialist." Based on this, we plan to secure mid-career personnel with a high level of expertise.
Promoting employment of foreign nationals: In companies that support the Duskin Group by conducting business overseas, many non-Japanese personnel are active in managerial positions that play a central role in business operations. Our policy is to continue to flexibly adopt and promote foreign nationals as we expand our overseas operations.
Hiring people with disabilities: In order to employ and retain more people with disabilities who are able to work, we are carrying out initiatives to examine the types of jobs suitable for the different range of skills and interests of people with disabilities and to establish a structure to assist them.

Work-style reform and health-focused corporate management

We believe that in order for us to continue to practice our corporate philosophy of "sowing seeds of joy" for people and society, it is important to create a work environment where employees are healthy and possess work-life balance, are able to maximize their individual abilities, and feel a sense of accomplishment and satisfaction. To this end, Duskin promotes diverse work styles that are not restricted by time or place and implements various measures, including the establishment of a No Overtime Day with the goal of limiting the number of hours worked per person to 1,800 hours or less a year.

In February 2023, we received our second "Kurumin" certification from the Minister of Health, Labour and Welfare as a company that supports child-rearing, and we are working to improve the workplace environment and raise awareness among all employees to help them achieve a better work-life balance.

Furthermore, as we advocate the Duskin Health-focused Management Declaration, we are committed to managing our business with a focus on the health of our employees. Recently, we have been certified as a Health & Productivity Management Organization 2024 by Nippon Kenko Kaigi (Japan Health Council), which is our eighth consecutive certification since 2017. We will continue to work in partnership with the health insurance society and workers' union to obtain certifications for all Duskin Group companies that are members of the Duskin Health Insurance Society.

Work-life balance

- Annual paid leave taken: 60%
- Continuing and further promoting telework
- Implementing the Leave the Office Early Day Campaign on the last Friday of each month
- Leaving a certain time interval before the next shift

Programs that assist employees to achieve a balance between work, childrearing and nursing care

- Birth and childcare leave, family care leave, reduced working hours for childcare
- Encouraging male employees to take special leave when their partner has a baby
- Allowing employees to adjust work starting time to fit individual circumstances
- System for reinstatement of employees who have left the company

Duskin Health-Focused Management Declaration

For Happiness of Employees

Duskin will encourage and help our employees and their families to maintain and improve their well-being to lead their lives to their fullest potential as reflected in the philosophy of Prayerful Management. We hereby declare our commitment to health-focused management, through which we will support the health of our employees and the sound development of the company to sow the seeds of joy in society.

Together with Our Environment

One way Duskin contributes to creating a sustainable society is by applying 3Rs (reduce, reuse, recycle) plus renewables over the entire product lifecycle. We also work hard on finding solutions to environmental issues to contribute to building a decarbonized society that is in harmony with nature and has a small environmental footprint.

Social needs and challenges

- Greater awareness of the SDGs and the environment
- Accelerated shift toward a circular economy
- Deteriorating global warming issues

Risks and opportunities

- Social criticism and higher disposal costs from increased waste
- Surging energy expenses due to stricter environmental regulations; business damage from increased extreme weather events
- Higher recycling rates through effective resource use; reduced environmental impact through rational use of energy and other measures

Materiality

Contribution to the creation of a recycling-oriented society

Addressing climate change

Targets for the fiscal year ending March 31, 2025

- Rate of reused mops and mats: maintaining 97%
- Rate of recycling food waste: 60%
- Registration of certified low-emission vehicles: 3,760

Duskin Green Target 2030

In order to contribute to the realization of a circular economy and a decarbonized future as stated in our Environmental Policy, we have set DUSKIN Green Target 2030 as a set of targets for environmental management to be reached by the fiscal year ending March 31, 2031, and are working to achieve it.

For details about our environmental policy, please refer to the following web page.

<https://www.duskin.co.jp/english/sus/ecology/ecologypolicy/>

Targets for the fiscal year ending March 31, 2031

Reducing waste and efficient resource use help build a recycling-oriented society

- Reduce food waste by **50%** (compared to fiscal year ended March 31, 2001)
- Reduce fossil fuel-derived single-use plastics by **25%** (compared to fiscal year ended March 31, 2021)
- Recycle **60%** of plastic containers and packaging

Responding to climate change helps achieve a decarbonized society

- Renewable energy use rate of **50%**
- Reduce CO₂ emissions across Duskin Group locations by **46%** (compared to fiscal year ended March 31, 2014)
- Reduce Scope 3 emissions across our supply chain by **26%**

Reducing container and packaging plastic

As a source of ocean garbage and other pollution, plastic has a major impact on the environment and on daily life. Duskin implements the initiatives listed on the right for handling plastic materials. These initiatives contribute to achieving a sustainable society by using resources effectively and by reducing environmental burden throughout the entire lifecycle of the plastic containers and packaging that we use.

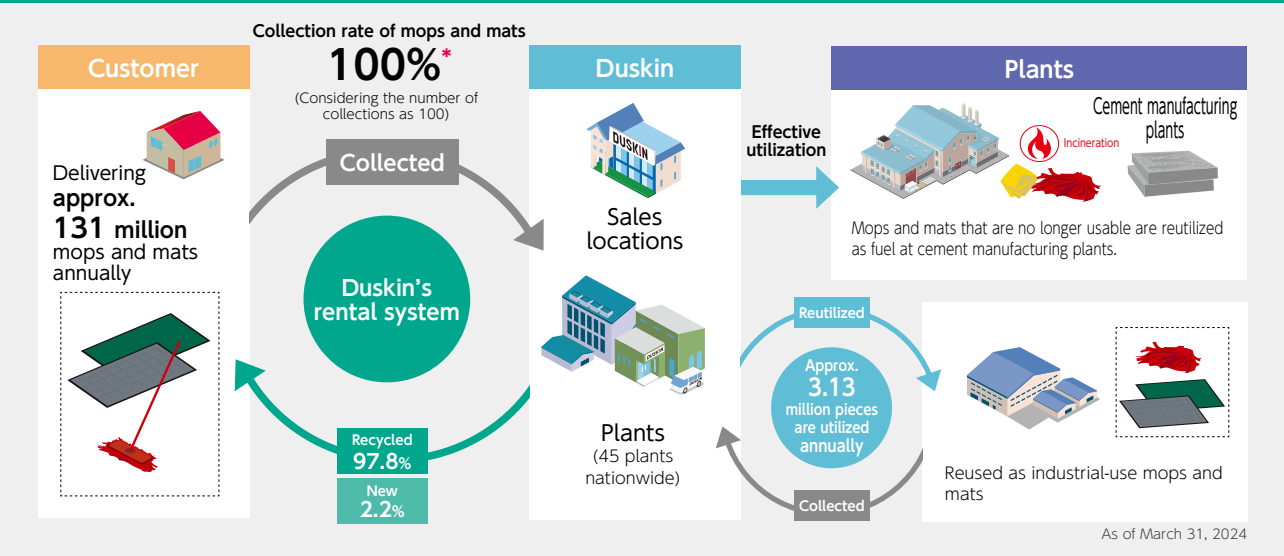

Helping achieve a recycling-oriented society

■ Direct Selling Group: Reuse of mop and mat products

Used items are collected from customers, and 97% of the collected items are processed in the laundry plants and reused. The remaining items are also utilized until their usable life ends. Dust and dirt on mops and mats are also effectively used as part of the fuel for the cement manufacturing plants.

Duskin's reuse and recycling system

* The percentage is calculated by excluding items that are not recoverable, such as items lost by the customer.

■ Food Group: Reducing food loss and recycling food waste

Donut recycling

Mister Donut has been working on reducing food waste as much as possible by reinforcing its management controls through the use of production schedules and disposal checklists. The donuts that are still left over after shop hours are recycled as animal feed.

Note: Excluding some shops.

Donut cooking oil recycling

We recycle old donut cooking oil for use mainly as industrial material and liquid detergent. Some oil is also reused as boiler fuel at Duskin plants or is exported overseas for use as biofuel. Thanks to all these endeavors, Duskin recycles 100% of its used donut cooking oil.

CO₂ emission reduction efforts

■ Duskin converts some raw material waste to energy

We have built a waste-free resource recycle loop by converting raw material waste generated at Mister Donut distribution centers and at other companies into biomass fuel for use in power generation. In addition, we use renewable energy with non-fossil certification for 100% of the electricity used at five of our facilities, including our head office.

■ Evaluation tests on converting Duskin company vehicles to EVs

We have tested the use of electric vehicles (EVs), and based on the results of those tests, which evaluated such factors as the benefit of conversion to reducing environmental burden and on running costs as well as its utility, we are preparing an EV conversion plan to help achieve a carbon-free future.

Together with Shareholders and Investors

Initiatives to strengthen corporate governance

We are strengthening corporate governance, as we believe it to be one of the most important issues for business management. In 2017 we created a Directors Evaluation Committee and introduced an Operating Officer System in 2018. In 2019, we changed the Directors Evaluation Committee to consist of only independent Directors and to function as an advisory body to the Board of Directors. As of 2022, we have also increased the number of female Outside Directors by one to three. Taking into account amendments to laws and changing society, we will continue to work toward further improvements in corporate governance.

Changes in the corporate governance structure

2003	<ul style="list-style-type: none">Quality Assurance Committee (now Sustainability Committee) establishedCompliance Promotion Committee (now Compliance Committee) established

Basic policy

To meet the expectations of various stakeholders and to become a company that achieves sustainable growth while increasing its corporate value over the medium to long term, Duskin understands that strengthening of corporate governance is one of its most important management issues. In addition to establishing a management system that can respond quickly and accurately to changes in the business environment, Duskin will further bolster its structure, organization and systems to ensure sound and highly transparent management. Duskin will also place compliance at the center of all corporate activities to continuously improve its corporate value.

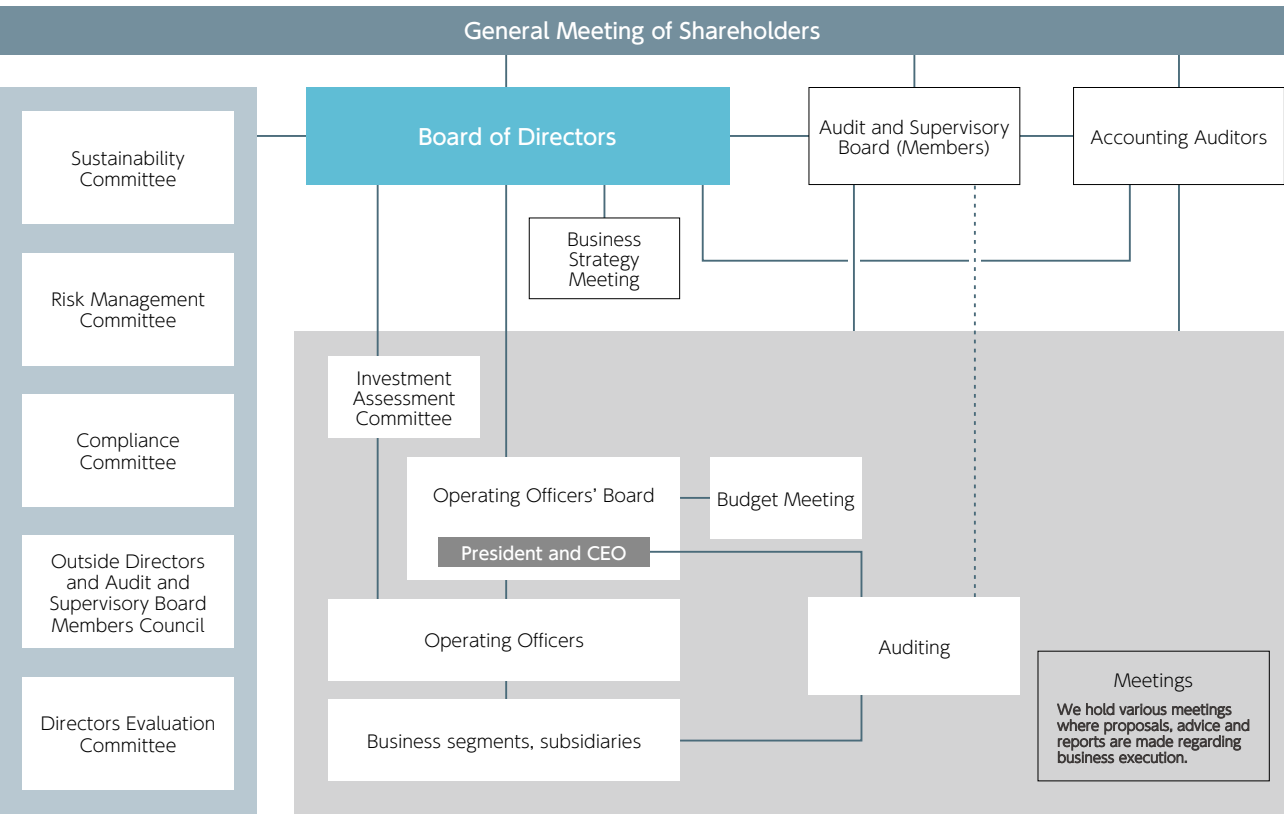

Details of the Corporate Governance Report are available on the following web page.
<https://www.duskin.co.jp/english/ir/governance/corporate/pdf/CorporateGovernance.pdf>

Corporate governance structure

Duskin corporate governance uses an audit and supervisory board system. We have introduced the Operating Officer System to streamline the Board of Directors' decision-making process and strengthen its supervision of company business. To ensure the system's effectiveness, we have also set up the Directors Evaluation and Nomination System. Additionally, to ensure that the process of determining the remuneration of individual directors is objective and transparent, we have established the Directors Evaluation Committee. At the Board of Directors, Directors, who typically serve concurrently as Operating Officers, monitor and supervise the performance of other Directors. The Audit and Supervisory Board consists of independent outside Audit and Supervisory Board Members capable of objectively conducting audits and internal full-time Audit and Supervisory Board Members, who are well acquainted with our business operations and have skills needed to gather information. Under this system, the Audit and Supervisory Board Members, internal and outside, perform accurate audits. We consider this structure highly effective as it supports customer-oriented management while ensuring sound and efficient business operations. This system also enables us to swiftly and precisely respond to changes in the business environment.

Corporate governance structure (as of June 2024)
