Duskin Co., Ltd.

Duskin to Open an Occupational Health Consultation Room

Osaka (September 30, 2026) — [Duskin Co., Ltd.](#) will open an Occupational Health Consultation Room at its headquarters on October 1, 2026. The aim of the initiative is to strengthen the promotion of Health and Productivity Management* and enhance support systems for a comfortable and supportive work environment.

*A government-led approach that promotes employee health as a business priority through strategic initiatives

■ About the Occupational Health Consultation Room

A public health nurse and registered nurse will be stationed at the facility to provide health consultations, follow-up support regarding health checkup results, guidance on lifestyle improvement, health information and education, health counseling, and referrals to appropriate mental health support services for employees.

■ Reasons for Establishing the Occupational Health Consultation Room

1. Health issues identified through the Duskin Health White Paper

As part of its Health and Productivity Management initiatives, Duskin publishes an annual Duskin Health White Paper. This contains analysis of employee health check-up results and reports on employee health trends. (<https://www.duskin.co.jp/english/sus/social/health/>)

Recent analyses identified the following health-related challenges: rising obesity rates, an increase in lifestyle-related disease risks, and the need to further enhance employees' health awareness (health literacy).

2. Employee survey findings revealed demand for health consultation services

According to an employee survey, more than 80% of respondents expressed interest in utilizing a dedicated health consultation service. This finding underscored the need for accessible health consultation opportunities.
