## Rental of mops and mats

Based on the idea to fully recycle the products through repeated use until the end of their useable life.

as of April 1, 2014

## Strength 1: Production, logistics and distribution system that covers the nation

Competition is minimal in this business field. To establish this recycle-oriented business model to cover the nation, a large investment is required to build the laundry plant system, to purchase materials for rental products, and to create a nationwide sales organization.

## Strength 2: Strong customer-base

A large customer base that facilitates fäce-to-fáce sales activities and includes extensive relationships between sales staff members and loyal residential customers.

## Smile Ring Project

On March 11, 2011, the Great East Japan Earthquake caused extensive damage to many properties and buildings, including Mister Donut shops.

Wishing to bring as many smiles as possible to the victims of disaster-hit areas, Mister Donut launched the Smile Ring Project."Mister Donut Car" is driven into a neighborhood for the people to enjoy the donuts. Wishing to see more happy smiles, we are now spreading the Project across Japan.
