## Rental of mops and mats

Based on the idea to fully recycle the products through repeated use until the end of their useable life

Franchisees pay deposit.
(Delivery = Rental)
 (Laundry and Logistic)

Collect used products
(Deposit is refunded to franchisees.)

| Company owned and <br> subsidiary plants: 13 <br> Franchised plants: <br> Total plants: $\quad 45$ $\mathbf{l}$ |
| :--- | :--- |

The numbers above include plants dedicated for laundry or distribution.

Strength 1: Production, logistics and distribution system that covers the nation
Competition is minimal in this business field. To establish this recycle-oriented business model to cover the nation, a large investment is required to build the laundry plant system, to purchase materials for rental products, and to create a nationwide sales organization.

## Strength 2: Strong customer base

A large customer base facilitates face-to-face sales activities and includes extensive relationships between sales representatives and loyal residential customers.
